

FocusMate

Your AI Copilot for
Calm Productivity

ADHD minds don't lack focus - they battle digital chaos.
FocusMate turns that chaos into calm with an AI that
listens, organizes, and guides.

Get Started

The Modern Struggle to Stay Focused

ADHD users face constant overload - endless emails, forgotten reminders, fragmented thoughts. Traditional planners fail because they demand the very focus people are short on.

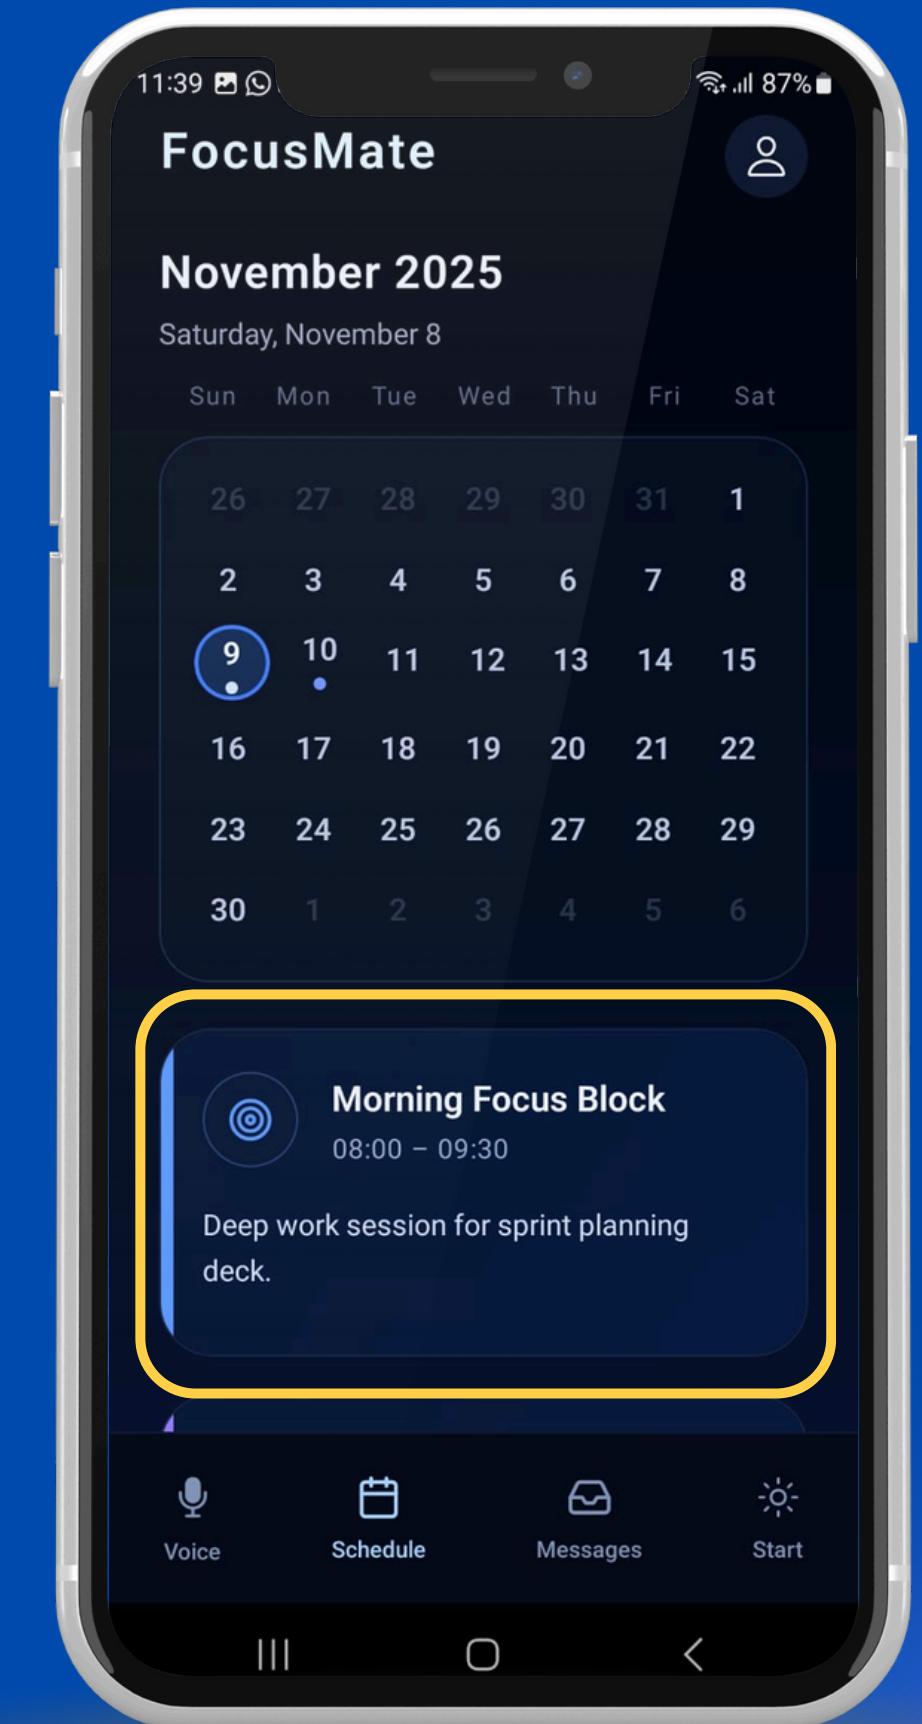

What they need isn't another tool – it's a copilot.

Our Solution

Meet FocusMate Focus Re-engineered

- FocusMate unites AI, empathy, & automation.
- Speak your tasks aloud – it listens, classifies, schedules, and reminds you.
- From voice commands to smart email sorting, everything syncs with your Google Calendar.

Key Features

VOICE ASSISTANT

FocusMate's voice assistant lets users add tasks, notes, and reminders hands-free. Just speak and it listens, understands, and structures your day in seconds, reducing the cognitive load for ADHD minds.

EMAIL ANALYSIS

AI scans and classifies incoming emails into Tasks, Articles, or Instructions. It extracts key actions, summaries, and priorities - turning inbox clutter into a clear, organized plan.

PLAN MY DAY

Combines tasks from voice, email, and calendar to auto-generate a daily plan. Prioritizes what matters most and sets reminders so users stay focused, calm, and on schedule.

Our Inspiration

In a conversation with **Michelle Davidson**, she shared how overwhelming it can feel to start each day not knowing where to begin.

Her insight sparked one of FocusMate's most meaningful features - Plan My Day - a simple, calming way to turn chaos into a clear, guided start.

Michelle reminded us that sometimes, one honest story can shape an entire solution.

AI & Data Backbone

How It Works???

- Powered by LangChain + Claude, our AI extracts, summarizes, and prioritizes.
- It learns from your voice, emails, and schedules – creating a personalized rhythm that remembers what matters.
- Calm productivity through contextual intelligence.

Business Model

Empathy first, revenue second - FocusMate grows by helping minds find clarity.

FREE TIER (FIRST 3 MONTHS)

- Full access to all features
- Builds trust and habit
- Encourages retention through routine

SUBSCRIPTION (\$2.45/MONTH)

- Continued access to voice, email, and planning features
- Smart reminders, daily summaries, and calendar sync
- Affordable and inclusive for students and ADHD users

FUTURE EXPANSION

- Premium analytics and insights
- Enterprise/educational collaborations
- Community & wellness integrations

Future Scope

- **Smart Reminders:** AI learns user patterns to send timely, calm reminders that reduce overwhelm.
- **Customizable Activities:** Personalized focus modes and daily templates tailored to each user's rhythm.
- **Analytics & Insights:** Visual dashboards that track focus trends, progress, and productivity growth.

Empowering users to understand, adapt, and thrive - one focused day at a time.
